**Subject:** OCMCA Response Time  
**Attachments:** Response Letter.pdf; Documents 1743.pdf

Supervisor Bailey

Treasurer Langlois

I was disappointed that EMS response time data was not made available by Mr. Stewart to us to review at Officer Office Hours yesterday (10/23). You were told by Mr. Stewart that such data had been provided to me in response to a recent FOIA request. This FOIA request (response attached) was only for a copy (unsigned) of the latest letter sent to OCMCA (Oakland County Medical Control Authority) certifying compliance with various requirements of our OTFD ALS (Advanced Life Support) Medical Treatment License. It contains no data.

I am adding to my original request to Board Officers for “share data with me” to “share data with the public”. My additional request is to:

**Make 90% EMS response time as defined by OCMCA a “Dashboard” item in our township data on website**

Average fire / EMS response now reported is not useful to residents to see if we are in compliance.

You indicated that if we are out of compliance with OCMCA response time standards, Chief Strelchuk should provide a plan to get into compliance. I believe that with the current chain of command arrangement, it is Township Superintendent who would -

- 1) - know if we are in compliance or not,
- 2) - owes you such a plan, if needed

The job description for Fire Chief provided to me under a recent FOIA says ***“Works under the direction of the Township Superintendent”***.

If or to what extent he involves the Fire Chief or allows him to present to the Board is totally at his discretion. It is therefore possible that information that Chief Strelchuk would like to present has been blocked.
