BOT Email 2017-003 – Suggest we follow lead of Washington Twp. Monthly report from Fire and Police

At the link far below to the Washington Twp. BOT meeting packet for 4/5/2017 can be seen extensive date-filled performance reports from their Fire and Police.

As a resident of Oakland Township, about 45 % of my township tax dollars go fund these two vital services. I'd like to see monthly performance data like Washington provide to their residents. Response times would be a good place to start. Washington Twp. seems to be in compliance.
