**Subject:** Communication

Chief Strelchuk

I'd like to see OTFD take 5 minutes once a month at BOT to present key data and facts for the previous month at the first Board meeting of each month. If we could start Nov. 14 that would be ideal.

If the Board and residents are given this information each month, along with some relevant and brief anecdotal stories and some Q &A each month, we will then be best able to "sell" projects involving manpower or capital. We will be working with an informed BOT and residents.

There are a lot of possibilities, for starters I recommend this list

Number of calls last month by 3 types

EMS

Fire

Other

EMS 90 % fractile response time

Fire 80% fractile response time

Staffing levels

Full-time

POC average response number to fire / EMS calls showing qualifications for EMS (MFR, EMT, PM)

Complete roster with qualifications and for POC response % last month

I would be glad to prepare and present this information, with your help if necessary. The presentation needs to short and direct. You would be available to answer any questions from Board or residents.
