That was correct and still is. I believe we are closer to that goal now then we ever have been.

Subject: Your Goals

Paul,

In 2014 after Barbara and I talked to you and your organization I would have written your goal as follows:

**Goal:**

***"Persuade Board of Trustees to fund staffing of stations #1 and #2 with a total of 2 full-time paramedic / firefighters per shift. This requires hiring six full-time people and training them (if not already trained) as paramedics and firefighters. This will reduce the risk of a life-threatening inadequate response, improve safety to personnel and bring us in compliance or much closer to compliance with NFPA and OCMCA standards."***

Was I correct then? Is this still your goal?

Bob Yager
