**Subject:** Request for investigation

Board of Trustees

Charter Township of Oakland

Cc: Chief, Twp. Manager

Re: Request for Investigation - Star Ambulance and Orion Township

Board of Trustees -

Please investigate for us, the residents of Oakland Township, as part of your duty to safety, health and welfare of township residents- the following allegation that came to me today from a credible source.

***"....I'd like to also let you know that Orion twp has hired a new fire chief. They are paying him 120k/year and he is tasked with taking their dept to an ALS dept.***

***They are dissatisfied with STAR's service.***

***I have it first hand that stars service is second rate and their staff is less than qualified, as is typical of private EMS. "***

We residents ideally would like to see an approved motion or resolution at the next Board meeting directing someone or some group to investigate this allegation, with a deadline to report back to the public. The resolution ideally should specify the contents of the report and what should be reviewed.

Bob Yager – Public Safety Editor – Oakland Township Sentinel
