 Rainbow Basket Egg Farm

November 27, 2018 · 🌐

We have incurred several thousand dollars in legal and other expenses fighting Oakland township even tho we had already completed and are compliant with all the things pertaining to us in the right to farm act! They gave us a frivolous citation anyway which we had to hire a lawyer and defend in court. We are still dealing with various agencies and false complaints being filed by a neighbor in defending OUR right to farm. PLEASE...PLEASE! Take a minute and read this and share it on your facebook page!.....

The Farm Bureau is urging the state's Agriculture & Rural Development Commission to vote in support of removing zoning references from the Generally Accepted Agricultural and Management Practices on site selection. We believe this change protects the Right to Farm Act's integrity and is in line with the Attorney General's opinion earlier this year that reaffirmed the law's preemption of local zoning.....

Show your support to the five-member commission by using the pre-written comments provided or inserting your own personal thoughts. Letter is as follows.....

I urge you to vote in support of removing zoning references from the Generally Accepted Agricultural and Management Practices (GAAMPs) for Site Selection and Odor Control for New and Expanding Livestock Facilities.....

Our organization's grass-roots, member-developed policy on the Right to Farm Act (RTFA) strongly supports removing the language because the Site Selection GAAMPs already contains specific setback and scientific parameters that new and expanding livestock facilities must conform with.

.....  
Furthermore, we believe this change protects the Right to Farm Act's integrity and is in line with the Opinion No. 7302 issued by Attorney General Bill Schuette on March 28, 2018 that reaffirmed the law preempts local zoning. ....

We must stop local governments from excluding animal agriculture and stand up for the original purpose of the RTFA which strikes a delicate balance between the state's social, environmental and economic needs.....

Thank you for your time and consideration.

needs.....

Thank you for your time and consideration.
